

# Mr. Harper is 100% right, Canadians "worry about affordable housing and the number of homeless people on our streets."

[Throne Speech - October 16, 2007]

Nearly four million Canadians need affordable, secure housing.

Today more than 250,000 Canadians live in co-operative housing.

We agree more needs to be done.

On November 22, as Canada marks **National Housing Day**, members of the Co-operative Housing Federation of Canada are asking Mr. Harper to be right again - maintain the federal financial commitment to Canada's Co-ops, so we all can do more.

**Co-operative Housing Federation of Canada**
